- Status: Active/Published
- Parking Spaces

Property Description

This property is located just 3.5 miles from downtown Athens. The house is 18 years old, built entirely of concrete, and is in very good condition. It is a house with ample space for improvements or expansion, easy to renovate, or even to build an additional apartment. At the bottom of the house, there is a spacious area that serves as a storage room and with a little work could be improved and converted into a workshop or even an independent room or apartment. At the entrance, there is a small house that could also be expanded to become a guest house or even for rent since it is located away from the main house, thus preserving privacy. It is located on a low-traffic street, which adds more tranquility to the area. From the rear of the house, beautiful views of the mountains can be appreciated. It is a property unlike few in this area. Contact us and let's schedule a visit so you can experience the peace and tranquility of living in this beautiful place.
